

Homework 01

[Re-submit Assignment](#)

Due Feb 2 by 11:59pm **Points** 10 **Submitting** a text entry box or a file upload

1. Setup IDE (Xcode, Visual Studio, etc.) on your personal computer.
2. Write a C++ program that reads in the price of a pen and the number of it, and then output total price in dollar, like \$3.20
 - use **cin** to get numbers and use **cout** to output result.
 - use **double** to store the price of a pen, and use **int** to store the number of pen.
 - State your name in a comment line.
3. Write a C++ program that takes five whole numbers as input, and that outputs the average of them.
 - use **cin** to get numbers and use **cout** to output result.
 - use **int** to store each number.
 - The average is rounded off to the first decimal place. (use 'precision(1)')
 - State your name in a comment line.

If you have question, email me.

Upload your code to the Canvas site. If I find some mistake, I will let you know so that you can fix.
